AMENDMENT 0003

QUESTIONS RECEIVED FROM PROSPECTIVE BIDDERS FOR DACW51-03-B-0025 (CALVERTON VA CEMETERY SITE IRRIGATION SYSTEM) Answers for Informational Purposes Only

1. Spec. Section 02480 sheets 1-11, I'm not clear on my Scope of Work. Am I bidding trench restoration only, topsoil seed, etc., or am I bidding the whole area, 14 ½ acres, topsoil & seed.

Answer: The contractor will be responsible to restore all existing or new turf areas disturbed, damaged or scarred during trenching and construction operations to their original condition and correct irregularities in finished surfaces to eliminate depression and complete lawn work only after areas are brought to finished grade.

2. We contacted several tank manufacturers asking for a proposal for the hdropneumatic tank specified, They all replied that they declined to bid the tank as specified. Would you please supply us with the name of several tank manufacturers that can meet your specifications so we may get quotations for your Calverton Cemetery project.

Answer: The construction proposed for WATER SUPPLY STATION #5 in its entirety will be revised. The requirement for the hydropneumatic tank may not be required. Thus, all work as specified for the WATER SUPPLY STATION #5 as shown on PS#5-1, PS#5-2, PS#5-3 and IR-E1 will be deleted from the advertised work for DACW51-03-B-0025.

3. If we do not notify government within 24 hours for any reason an equitable adjustment may not be allowed? (PAGE 01001-1, PARA. 1.42, SUBPARA. a & c.)

Answer: For any reason that deals with a Differing Site Condition as expressed in Section 01001 Paragraph 1.42(a).

4. Do we have to create and maintain a fire protection plan, etc. based upon what this paragraph says? Note all additional subparagraphs seem to pertain to other type of work. (PAGE 01010-5, PARA. 1.4, SUBPARA. B.)

Answer: Yes

5. Do we have to install a construction steel fence around the entire construction site with gates and then remove same? (PAGE. 01010-8, SUBPARA. I.)

Answer: The fencing would have been required for construction of WATER SUPPLY STATION #5. The fencing per SUBPARA I will be deleted.

6. Do we have to have a professional engineer/surveyor who will not only stake and perform other services, but shall not be an employee of our company? Only his drawings and his seal shall be acceptable. (PAGE 01010-14, PARA. 1.10.)

Answer: Yes

7. If we have to install an office trailer, do we have to install a meter and pay monthly electrical usage? (PAGE 01010-19, PARA. 1.19, SUBPARA. B,C,E.(1).)

Answer: Yes

8. Do you furnish us with a list of qualified quality control engineers? (PAGE 1312-1)

Answer: Government does not furnish a list

9. What are we talking about when you say develop and maintain a complete list of QC testing? (PAGE 1312-6, PARA. 6.3.6)

Answer: The results of any QC testing that is done needs to be recorded.

10. The staff shall include a CQC System Manager, etc. How many people are required or expected for an adequate managerial and office staff for this job? (PAGE 01451-2, PARA. 3.2.1, SUBPARA. a.)

Answer: As many people as are needed to fulfill the requirement of the specification.

11. If our contractor's plan, according to the gov't is unacceptable or unsatisfactory, does the start date get extended. Is a specific criteria given for what is a satisfactory plan? (PAGE 01451-3 PARA. 3.2.2.)

Answer: The start date does not get extended. Required elements are in the specification.

12. What is an onsite testing lab for irrigation? What specifically is required? (PAGE 1451-8.)

Answer: In the event that a Contractor elects to establish a laboratory as referenced in PARA. 3.7.3, the provisions of PARA. 3.7.3 shall apply.
